the future is now -
Feeding the future now...**

**FUTURISM
TECHNOLOGIES, INC.**

Who we are?

We are not just another IT services company. We take pride in our ability to partner with our clients to provide guidance and definition to their digital journey. Whether your journey is a digital revolution or evolution, our affordable, high-quality digital services help us stand out. We strive to help companies join the digital bandwagon to become more efficient and resilient and provide personalized experiences to their customers. We offer customized digital solutions in an iterative cost-efficient approach for every company. We help businesses realize that digital transformation is an opportunity for a business to keep up with the evolving marketplace.

Help you put your customers first

Futurism is a trusted Digital Transformation (DX) advisor and consulting partner assisting businesses to unlock the true value of digital. We provide DX services across the entire value chain including digital infrastructure, business processes, digital customer engagement, and cybersecurity. We have successfully helped hundreds of organizations spanning across retail, manufacturing, healthcare, BFSI and others live the digital dream. Our custom DX offerings are aimed to help you put your customers at the heart of all you do.

We help you accelerate ahead of the pack

We have been helping large enterprises with advanced business intelligence services such as AI, Machine Learning, IoT, Data Science and Blockchain. Our cognitive services are designed to give your enterprise the 'brAI'n' it needs. These futuristic cognitive offerings are aimed at helping organizations understand and unlock business intelligence helping them stay ahead of the curve. .

Filling the void

Small and mid-size businesses make the world go round – they are the core of the global economy! We want all small and medium business to have access to advanced digital tools advanced digital tools, data insights and connections.

We resonate with every small or medium sized company that is facing digital challenges similar to what large companies face, but have limited budget and shortage of specialized skills/resources.

*Want to make the best out of your digital journey?
We have got you covered!*

The Futurism Edge

The advancements in artificial intelligence (AI), machine learning, automation, robotics, internet of things (IoT), mobile computing, and 5G communications have made these technologies even more powerful. In fact, these have been coined as the fourth industrial revolution (Industry 4.0).

Unfortunately, many companies lack the budget, skills, or resources to harness such technologies. As a trusted digital services partner, Futurism is focused to fill the void and help small and mid-sized businesses develop and implement a digital roadmap for operational efficiency and new revenue opportunities.

Unlike other DX service providers or vendors that cover only one aspect of the system (e.g., network, website) or cater only to larger enterprises with big budgets, we at Futurism provide digital transformation services tailored to fit the needs of every organization irrespective of its size.

Futurism DX Framework

Efficiency, personalization and security sit at the core of everything we do here at Futurism. We walk hand-in-hand with our customers throughout their digital transformation journey. Our technology experts regularly update clients with evolving technologies, advise them about the best industry practices and implement the most apt technology specific to their needs. Simply put, customer handholding is our key strength.

A relationship that goes beyond SLAs

In today's unprecedented world, even the best of contracts/agreements fail to cover aspects on what will change tomorrow. An agreement can only transform into a business advantage through a value-based relationship. Our ethos manifest through transparency, trust, value-based relationship approach, and customer centricity fueled by our philosophy of 'Customers First', which ensures unrelenting pursuit of our customers' best interests.

Driven by our self-funding project and customized transformation approach, we help clients reimagine their business operations in the digital age. This approach is backed by the 'relationship beyond the SLAs' promise and commitment of hundreds of digital transformers i.e. our employees, who share a common goal of improving our clients' business through unparalleled innovation and value addition.

Why Futurism?

Building a connected world!

We can help you emerge as the next trendsetter in your industry. Why choose us? Read on to find out:

Not just another IT company!

We understand the fact that digital transformation is not a one-size-fits-all thing. With strong industry experience and domain knowledge, we understand industry-specific goals, challenges and requisites of digital disruption on a business and how to make the most out of it. We will partner with you to create a plan that is specific to you even if you are starting your journey afresh.

Helping you bridge the gaps

We emphasize on articulating an enterprise-wide operational strategy that connects the front, middle and back office operations thus, helping you connect the dots. You won't have to hire five different vendors to reach your digital goal.

Business intelligence at fingertips!

Our rich technological and business experience with artificial intelligence and Internet of Things (IoT), positions us to help you reap benefits of digital innovations and drive maximum value from your investment.

Self-funding digital transformation

We understand the fact that small and mid-sized enterprises form the heart of the global economy. We provide digital solutions that are tied directly to business output. Our iterative project approach for 'self-funding' digital transformation paves way for improved ROI and operational efficiency.

Proven Track Record Across Diverse Industries

Unlike other vendors, we can validate how we deliver results, data protection, process automation and streamlined project implementation. We have been successfully assisting MSPs, retailers, banking manufacturing, energy and organizations in other prominent sectors tame their IT and productivity costs.

On-demand skills augmentation

We boast of a wide spectrum of advanced skills and experience. From enterprise app developments to advanced skills including data science, AI, blockchain, and IoT, we provide the best technical talent. Let us focus on your DX journey, while you focus on your business.

Technology partners

Our strong technology partnerships help us foster novel thinking and challenges.

We team up to create pioneering digital experience services powered by emerging technologies including cybersecurity, Internet of Things (IoT), Machine Learning, AI, Blockchain and many more. Our digital transformation offerings address a wide range of client requirements. At any given time, we can team with a technology partner to bring you the best solution possible.

Conclusion

At Futurism, we are dedicated to helping businesses address the hardest DX challenges and live their ambitions - from startups to Fortune 500 companies – we work with all!

We bring an agile approach to both established and small/medium sized companies to unlock value in ways that delight their customers. Our approach to digital transformation is anchored with a distinct fusing of consulting and strategy, engineering and experience backed by an unending desire of problem-solving ability.

We firmly believe that every transformation opportunity and every interaction with our client/partner or vendor is aimed at building a better and connected working world. This helps our clients manage risks smartly, nurture growth and spark confidence leading to a painless DX journey.

As industries evolve, they create new opportunities and value for business. Futurism not only helps businesses identify these evolving opportunities and gaps, but also helps you capitalize on them.

Navigating through this rapidly changing environment calls for novel thinking and agility, and we have been achieving this for our clients since the last two decades. We help businesses perceive this change i.e. industry disruption as a golden opportunity and make the most out of it.

The void between next and now is a big challenge for many businesses, and how a business fills the void is everything!

We can do that for you.
